

OCTOBER 2017

FULTON SCHOOL

**OCTOBER
DATES TO
REMEMBER**

From the Principal, Ron Gonser

Dear Parents,

October already!!!

Overall I think we're off to a fantastic start at Fulton School this year. We have an excellent group of students who are excited about being here and ready to learn. It is evident that the students and teachers have spent time discussing classroom routines and school-wide procedures. As I walk through the hallways and into classrooms, I am impressed at how quiet the school is and by the teaching and learning that is already taking place at Fulton. I think we will have a fantastic year ahead of us. We continue to encourage parents to stay involved with your child's academic learning; your partnership is greatly appreciated. I believe that community involvement is an integral component in making Fulton the excellent school that it is.

The procedures and daily activities of your child's classroom should be familiar and comfortable to them by this time in the school year. If your child is still experiencing anxiety or any type of concerns, please contact your child's teacher. You are welcome to also include me on those types of communications. We will be happy to visit with you on the phone or to schedule a meeting to talk together regarding ideas to help your child or the situation. Please don't ever hesitate to contact us – we want to help.

During the past few weeks students participated in a series of assessments (MAP) that will help us establish a baseline for their knowledge in reading and math. This benchmark information will be utilized as one means to guide our instruction and also as we look at some students who may require some more support. Finally, the fall season is upon us which means that our weather will vary from day to day, from the morning to afternoon. Please keep this in mind as you send your children to school to make sure that they are appropriately dressed for recess and dismissal time.

Thank you,

Ron Gonser

FAMILY READING NIGHT 5:30—7:00P.M.

***SPIDER CHALLENGE THURSDAY,
OCTOBER 26TH
5:30p.m. to 6:30p.m.***

Notes from the Nurse:

An important reminder:

October brings Halloween classroom parties and Trick or Treating. Letters were sent home the beginning of this school year reminding parents about food allergies. Food allergies affect 4 percent of children younger than 18 and 2.5 percent of adults. Allergy prevalence has increased significantly since 1998. Every food-allergic reaction has a possibility of developing into a life-threatening reaction and even with proper treatment can be fatal. A life threatening reaction can occur with minutes or hours after exposure to the allergen. Some individuals may react to just touching or inhaling the allergen while others consumption of even a miniscule amount of the allergen can cause death.

Raising a child with a life threatening allergy is challenging. Parents of children with food allergies have had to find ways to keep their children safe in a world that is not presently food-allergy friendly. As their children grow and their world expands to outside the home, so do the demands on these parents to readjust their thinking and strategies for maintaining a normal, but safe environment for their children. What worked so well at home is now being entrusted to unfamiliar people. Protecting a child from exposure to offending allergens is the most important way to prevent a life threatening reaction. *Avoidance is the key to prevention.*

It is our goal to ensure that every student in our school is safe. Please check with your child's teacher or myself before sending food items to school parties. Make sure that all items are clearly labeled. A wide variety of non-edible items can be a safe option so that the child with the food allergy does not feel left out. The dollar store has many things, such as, pencils, bookmarks, water bottles, bracelets, rings, stencils, erasers, stickers, temporary tattoos, cups, etc. that can replace food items.

Please also discuss the following with your child:

- ◆ Do not offer, share or exchange any foods with other students at school.
- ◆ Hand washing with soap and water, after eating, is necessary to decrease the chance of cross-contamination on surfaces at school.
- ◆ If your child rides the bus, remind them that there is a "no eating on the bus policy"

Thank-you for your consideration and help in this matter. Please call if you have any questions or concerns.

Working together we can create a safe environment and still have fun.

FLU SHOTS M 3pm-6pm W 4pm-7pm @ Orland Township
Oct 2 @ 4:00 pm – 7:00 pm

Orland Township Flu Shots

*****Mondays 3-6 , Wednesdays 4-7

Flu shots are free for children 6 months to 18 years of age who do not have vaccine insurance coverage or who are Medicaid-eligible, Native American or Alaskan Native. Flu shots for adults 19 and older and children 3 and older who have insurance coverage are \$25. Senior high-dose shots are \$40 for those 65 and older. Both the regular adult flu shot and the senior high dose flu shot is covered by Medicare Part B; a Medicare Part B card must be displayed at the time of vaccination and no Medicare Advantage plans will be accepted.

Attendees should arrive with payment and/or Medicare Part B card ready for display. Anyone receiving a shot should be prepared to complete and sign a consent form before vaccination.

Drive-thru flu shot clinics are a quick and convenient way for the whole family to receive an annual flu shot, plus an easy way for those who struggle with mobility to stay on top of his or her health.

Vaccinations can be difficult for children, but receiving the shot from the comfort of a car seat or family car can make the experience less traumatic, plus the day will also include a fun treat for all participants.

****FLU SHOT INFORMATION Flu and Pneumonia Shots Available

Orland Township's 2017 Flu clinics are for anyone 3 years of age or older. The Pneumonia vaccines (Pneumovax 23 and Prevnar 13) will also be available at Orland Township flu clinics to adults 19 years of ages or older; consult your doctor first to find out which pneumonia shot you need.

Fluarix Quadrivalent* Flu Vaccine Prices

3 years of age and older: \$25

Medicaid (Title 19) card holders (ages 18 and under) can ONLY receive the Flu vaccine at our monthly immunization clinic.

*Fluarix protects against four different flu viruses. *Fluarix is preservative free.

Fluzone High-Dose Flu Vaccine Prices

Adults 65 and older with Medicare Part B**: Free

Adults 65 and older without Medicare Part B: \$40 *Fluzone HD Vaccine is preservative free.

Pneumonia Vaccine Prices

Pneumovax 23 – Adults 50 to 64 and 65 and older without Medicare B: \$100 Prevnar 13 – Adults 19 and older and 65 and older without Medicare Part B: \$195 Adults 65 and older with Medicare Part B**: Free

*A Medicare Part B card must be presented at the time of vaccination.

Notes from the Nurse.

Vision and Hearing Screenings

Vision and hearing screening are conducted annually as mandated by the Illinois Department of Public Health in the grades listed below. Screening at Fulton will be conducted during the months of October and November. Any child who does not pass the initial screening is rescreened within two weeks to rule out all of the variables that may interfere with testing such as ear infections, allergies, misunderstanding the instructions, just to name a few. Students who do not pass a second screening will receive a referral. Should you receive a referral, we ask that you follow through with the appropriate doctor promptly and forward the results to the health office.

Vision and hearing screenings are not a substitute for a complete vision evaluation by an eye doctor or an ear exam by a physician and an audio logical evaluation by an audiologist. Your child is not required to undergo these screenings at school if eye and ear evaluations have been administered within the previous 12 months and the reports are on file at school. If a vision examination report or an audiogram is not on file at school, your child will be screened at the mandated age/grade/group.

Vision Screening

- * All Pre-School children (3 yrs. & older)
- * Kindergarten, 2nd and 8th grade
- * At all grade levels - Teacher referrals, transfer-in students, and all special education students

Hearing Screening

- * All Pre-School children (3 yrs. & older)
- * Kindergarten, 1st, 2nd, and 3rd grade
- * At all grade levels – teacher referrals, transfer-in students, and all special education students

Facts about Influenza and the Flu Vaccine

Influenza (the flu) is an infection of the nose, throat and lungs caused by influenza viruses. Symptoms can include fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills, fatigue and sometimes vomiting and diarrhea. While the severity of flu illness may vary, and can be serious to otherwise healthy individuals, it can be especially dangerous for young children and children of any age with an underlying health conditions.

To protect against the flu, the first and most important thing you can do is to get an annual flu vaccine for yourself and your children (aged 6 months and older). A new flu vaccine is made each year to protect against the three flu viruses that research indicates are most likely to cause illness during the next “flu season”. In the United States flu season can occur as early as October and can last as late as May.

In addition to getting vaccinated, here are some other ways to protect against the flu:

Always cover coughs and sneezes with a tissue. Throw the tissue in the trash after you use it.

Stay away from people who are sick.

Wash hands often with soap and warm water. If not available, use alcohol-based hand sanitizer.

Keep your child home from school and day care when sick. Keep them home for at least 24 hours after fever is gone, without the use of a fever-reducing medicine. Adults should stay home from work.

If someone in the household is sick, try to keep that person away from others. Have them use her own hand- towel, utensils and drinking cup.

Keep surfaces and toys clean by wiping them down and disinfecting according to product label directions.

Call your family doctor or pediatrician to schedule an appointment for your annual flu vaccine today. Children who are uninsured or underinsured may get a flu shot at the next **Orland Township** vaccination clinic (SEE THE ORLAND PARK FLYER ATTACHED IN THIS NEWSLETTER) Call 403-4222 for detailed information about the clinic and eligibility requirements. A nominal fee may be charged for non-residents.

Fulton Drop-Off & Pick-Up Procedures for Car Riders

On *page 26* in the Student/Parent Handbook, the Drop-Off & Pick-Up Procedures are explained as follows: Congestion around school buildings is a tremendous safety issue. Drivers should be mindful of designated drop off and pick up areas, and to obey the traffic flow patterns put in place at each building. For students safety reasons, only Buses are allowed in the circle drive behind the building during regular school day hours. If a parent wants to park behind Fulton, the designated area is in the parking lot east of the Bulldogs' building. After parking, parents must walk with their child on the sidewalk to the school entrance. It is not safe for children to be walking through a parking lot on their own. Students **SHOULD BE** dropped off in the front of the building along 171st Street and should walk on the sidewalk into the school. There are many staff members to make sure everyone is safe. Students should be dropped off between the hours of 8:30 and prior to the tardy bell at 8:45 a.m.

CELL PHONE USAGE IS
ILLEGAL IN A SCHOOL
ZONE

ELEMENTARY SCHOOL:

Students who should not ride the bus home on a particular day need a written note or phone call from the parent by 1:00 p.m. as stated in the Student/Parent Handbook on page 26.

Math Message:

It is said that there is a "correct" way to write the numerals 0-9. By correct way, it is meant that these are the *easiest number formations to recognize* for all children. This isn't just for the primary grades either, it applies to intermediate and beyond as well. According to research, 20% of students may see numbers incorrectly at any age. This being said, it is not bad for students to see numbers written in ways other than how they appear below, but it is something to consider when children are writing numbers. Here is a picture of the numerals:

For questions, contact Fulton Math Specialist, Mrs. Alexander (Ms. Lococo).

FALL FESTIVAL

DAY AT FULTON—

Monday, October 31st!

Tuesday, October 31st will be our Fall Festival Day at Fulton School. There will be more information to follow.

Students in Kindergarten will have their own activities and parents will receive the information from the classroom teacher.

Physical Education

Be on the lookout for information sent home for the Spider Challenge and Reading Night in the upcoming weeks. Once again, students will practice the Spider Challenge obstacle course for a week in physical education class and then will be given the opportunity to run through the whole thing on Reading Night. **Wednesday, October 4th** is Walk to School day so if you could, walk to school. **PARENTS CAN JOIN THEIR STUDENTS IN WALKING!!**

Thanks,,

Zach and Matt

GRADE NEWS

First Grade: First graders have been talking about using schema while reading to help with understanding. Schema is what you already know based on previous experiences. If you use your schema and make a connection to a story it helps you better understand and relate to the text. Please continue to read nightly and talk about books for understanding.

In math we have been counting, writing and sorting numbers from 0-120. We have begun to compare lengths using comparative language like long, longer, longest and short, shorter, shortest.

Please practice numbers and play math games to increase number sense.

Second Graders: In Math the students will add three-digit numbers with and without regrouping up to 1,000. They will continue to fluently add and subtract within 20 using mental strategies and solve one and two step word problems.

In the area of Literacy we will continue to describe how characters in a story respond to major events and challenges. This will include learning about fables, folktales, and fairytales. We will determine the central message, lesson or moral for the stories.

Third Grade: In literacy, students are reading a variety of fiction stories and identifying narrative elements, including characters, setting, and plot. Students will be asked to describe traits of characters in a story and find text evidence to support their claims. As students compose narratives in writing, they will be encouraged to incorporate descriptive details and sensory words.

Students are exploring concepts of motion in science. They are engaged in learning activities to answer questions such as: "What is motion?", "How does force affect motion?", and "What is gravity?".

In math, students are creating and interpreting picture and bar graphs. They are solving one and two step problems, and answering how many more and how many less questions. Students will be introduced to the concept of area by counting square units.

Fourth Grade: -Happy Fall! We are wrapping up Social Studies chapter 2 Exploring Regions in the United States. This month 4th grade will be exploring our interactive science materials. We will begin with a unit of study about scientists. The students will learn about questions scientists ask and how they investigate to answer those questions. In math, we are finishing our unit on place value. We are moving into addition and subtraction algorithms. Please remind your student to keep practicing their multiplication facts. A new fact math calendar will be coming home on October 2nd. The goal is 10 minutes of practice for 20 days. Math fact websites are a great way to meet that goal. All 4th graders have their AR goals set for reading. They must make their goals by November 10th, which is the end of the trimester. Keep up that great reading!

GRADE NEWS

5th Grade— Welcome to fall! It's hard to believe we've been hard at work for over a month already! We are wrapping up our Fall MAP tests and look forward to creating learning goals from the data we receive.

We would like to welcome Miss Grace Furlong to our team! She is a student teacher from Trinity Christian College. Miss Furlong is working with Mrs. Kaiser and will be with us all year.

D.A.R.E. has begun! We are excited to be working with Officer Melissa Bonarek from the Tinley Park Police Department this year. Officer Bonarek will come to each fifth grade class for forty-five minutes every Tuesday through December. Peer pressure, bullying, building confidence, and good decision making strategies are topics covered in D.A.R.E.

In reading, we are reading multiple texts and practicing several reading comprehension strategies such as schema, questioning and visualizing. The fifth grade students are reading from the Storyworks magazine. It has a wide range of genres including **informational and narrative nonfiction**, short fiction, poetry, debates, and read-aloud plays based on myths, classic literature, paired texts and history. We will also continue to utilize our Journeys reading textbook.

Students are doing a great job writing in their writer's notebooks! We are working on our narrative writing skills paying special attention to using higher level vocabulary words and conventions such as punctuation and capitalization.

Our math studies this month will continue to focus on multiplication and division strategies. We will then move on to order of operations and volume. **It is imperative that all students have their basic math facts memorized!**

In Social Studies, students should have expanded their knowledge about maps, globes, geography, and landforms. Next up: learning about a variety of Native American tribes, where they settled, and why they settled there. We are looking forward to our field trip to The Field Museum on October 19th. This trip will allow us to see Native American artifacts firsthand.

Fifth grade teachers believe the best way to improve student comprehension skills and fluency is to JUST READ. We encourage our 5th graders to read EVERY NIGHT. Parent support is much appreciated in this area. We also encourage parents and students to work on multiplication facts nightly.

OCTOBER Breakfast Menu

<p>2</p> <p>Fudge Poptart whole grain) w/cheese stick</p> <p>Choice of Fruit & Milk</p>	<p>3</p> <p>Cinnamon Toast Crunch Bag w/cheese stick</p> <p>Choice of Fruit & Milk</p>	<p>4</p> <p>Banana Muffin (NO NUT) w/cheese stick</p> <p>Choice of Fruit & Milk</p>	<p>5</p> <p>Strawberry Poptart (whole grain) w/cheese stick</p> <p>Choice of Fruit & Milk</p>	<p>6</p> <p>Soft Chocolate Chip Oatmeal Bar w/cheese stick</p> <p>Choice of Fruit & Milk</p>

The

Great Pumpkin Night- 10/26/17

Fulton will be getting into the fall spirit by displaying student created pumpkins based off of a favorite book or book character during Family Book Fair Night/Spider Challenge on October 26, 2017. Entries may be dropped off on October 26th at *Door 13* from 3:45 to 5:30 PM

You must turn in the attached entry form by Friday, October 13th to participate.

You may use real or fake pumpkins or gourds or both to create your project.

Absolutely no carved entries. Pumpkins/gourds that have carved, poked, or punctured skin will be disqualified. To decorate you can use paper, glue, paint, markers, pipe cleaners, fabric, or other craft items on the pumpkin. Have fun and be creative!

Projects must represent a book character or a book which would be appropriate for elementary school students. On the entry form you must write the title and author of the book, and we will supply a picture of the book cover to display with your pumpkin/gourds.

Projects should be dropped off on Thursday October 26th at Door 13 from 3:45 to 5:30. Projects must be picked up by Tuesday, October 31st. If they have not been picked up by October 31st they will be thrown away.

Look at some examples below or Google "Storybook Pumpkin Ideas" for inspiration!
